WIN-WITH-U FIRST FACE-TO-FACE PROJECT MEETING

ROME, 4-5 October, 2021

The first face-to-face meeting within the project was held in Rome, Italy on 04.10.2021 and 05.10.2021. It was hosted by the LUISS Business school. The WIN-WITH-U partners met for the first time after the COVID-19 pandemic started.

Partners reviewed the project progress since its beginning as well as some important aspects of the implementation related to overall project management. The next steps were discussed and planned and tasks were distributed among the partnership.

IO 1: WIN-WITH-U LEARNING METHODOLOGY

Already here :)

Intellectual Output 1 of the WIN-WITH-U project is a methodological document, guiding the development of the Resources and Learning Integrated Area and the respective learning content. All partners conducted studies and elaborated reports about the state-of-the-art of inclusion systems for autistic workers in their countries. Additionally, a study on the recent researches and advances on the impact

of neurodiversity in the workplace was conducted, and an in-depth analysis of project target groups of learning features and needs was prepared.

The output leader, Compus Bio-Medico University of Rome, analysed the results of a survey conducted online in all partner countries and prepared a final draft of the document.

IO 2: WIN-WITH-U RESOURCES AND LEARNING INTEGRATED AREA

Coming soon...

The WIN-WITH-U Resources and Learning Integrated Area is an innovative ICT collaborative solution providing free and easy access to all learning materials. It will include features such as learning content, sharing of content, materials, knowledge pools, collective writing features (wiki), etc. During the meeting, the output leader, ECQ, presented the main features of the Resources and

Learning Integrated Area and launched a discussion on the topic.

The consortium discussed all the features and characteristics needed and partners working directly with people on the spectrum provided valuable advice on the accessibility features that should be considered in the development process.

IO 3: WIN-WITH-U LEARNING CONTENTS

Coming soon...

The WIN-WITH-U Learning Contents consists of 2 individual learning paths, one focusing on workers with ASD to improve their specific and transversal skills needed on the workplace, and the other aimed to improve the knowledge about young individuals with intellectual disabilities and to prepare a friendly and comfortable workplace.

The partners used the opportunity to discuss the thematic blocks needed, as well as their distribution among partners in relation to their areas of expertise. Thus the work on IO3 can be started as planned and the results will be shared during the next face-to-face meeting that will be held in March 2022 in Belgium.
